DJ McHENRY MEMORIAL
"CHAMPIONSHIP FIGURE 8 RACING®"
 Saturday, October 2nd 12:00 PM
TOTAL PURSE \$2,200

JM Productions developed this form of action racing by using compact cars to enhance excitement for both drivers and spectators. Utilizing smaller, lightweight cars takes on all the excitement of a full-sized Figure "8" without likely danger to the drivers. Speeds average between 5 and 15 miles an hour and only 5 to 10 cars are allowed at a time. Unlike the traditional brute-force demo, in this event it is your ability to **out-think** and **out-manuever** the other driver that makes you the **WINNER!** Because of its challenge, drivers all over are switching to **FIGURE 8 RACING.** With strict guidelines/rules and the help of the drivers, we have made this race fun and fair for all.

PROGRAM OF EVENTS

QUALIFYING EVENTS #1 - #10	In each of these events, the "Winner" (first car to cross the finish line), will receive \$60, a hat, a trophy and will qualify to run in the Feature Championship Event. Second Place winner will receive \$40 and a trophy.
FEATURE EVENT #11	CHAMPIONSHIP: Open to the First Place winning drivers and their cars that qualified in the Qualifying Events. "Winner" will receive \$900, the Championship trophy & the DJ McHenry Memorial trophy. Second Place will receive \$300 and a trophy.

- Car numbers and heats are determined by postmark date.
- Figure 8 Drivers **ONLY** will receive an acceptance letter which will state **CAR #** and **HEAT #**.
- Stock fuel tank in stock position must be used.

WORLD’S LARGEST DEMOLITION DERBY
BLOOMSBURG FAIR - INSIDE FUEL TANK RULE

Due to the evening grandstand show & track seating, the fair board has asked us to install inside tanks to alleviate the gasoline fumes (see diagram below). They have received complaints from track seating patrons in the past.

1. An alternate fuel tank **MUST** be installed with the following provisions adhered to:
 - a) The stock fuel tank **must** be removed from the car.
 - b) The car must use an approved type of portable fuel tank. A fuel tank used with outboard marine engines is acceptable.
 - c) **No** plastic or stock tanks will be permitted inside the car. If you have a plastic marine tank, it must be placed in a solid steel case!
 - d) The tank must be mounted on a solid, flat surface located directly above the rear axle.
 - e) The tank must be securely mounted to the car body by at least two steel straps. **NO** rubber tie-downs permitted!
 - f) The mounted fuel outlet fitting on the marine tank cannot be changed.
 - g) The tank will not be allowed if fuel runs out when the outlet line is disconnected or when the tank is inverted.
 - h) If any gas is spilled in your car, it will not be permitted to run.
 - i) The fuel line must run under the floor pan to the fuel pump by using your original gas line or a new rubber hose.
 - j) Fuel pump must shut off with ignition switch.
 - k) No more than 3 gallons of gas is permitted.
 - l) The rear seat cushion support brackets and all areas designated with an “x” in diagram 2 (below) must be covered with sheet metal or aluminum (firewall) to minimize fumes from entering the driver’s compartment from the trunk area.

JM Productions does not imply or guarantee safety. We believe that when a gas tank leaks fuel or fumes, it is safer for them to leak on the track rather than in the car.
